

Safety protocols in our clinics

As a medical environment, Cataract MD continues to implement additional protocols beyond our usual standard health and safety measures.

We have implemented the following measures and screening procedures:

- All patients and visitors are required to use the hand sanitizer located at the entrance of the clinic.
- Masks remain mandatory in the operating room for staff and patients. Patients coming to the clinic for other types of appointments may wear a mask at their discretion. Masks will be available at the reception, if needed.
- At this time, patients are permitted to have one guest accompany them for their surgical appointment. Only translators or companions for physical assistance will be permitted for all other appointments.
- If you are experiencing COVID-19 or flu-like symptoms, please advise us **before** coming to the clinic and we will be happy to **reschedule** your appointment.

For any questions or emergencies, please call us at [**1-844-949-0703**](tel:1-844-949-0703).

Thank you and we look forward to seeing you soon,

Your Cataract MD team
